

Work Like a Senior

There is no doubt that seniors have work.

The question is: how much?

Workload varies by student and the academic path taken. These five seniors represent the most commonly taken paths: the International Baccalaureate (IB) Diploma, IB certificate, all college prep classes, the Health Careers Academy (HCA) and the Digital Arts Academy (DAA). It is important to remember these five do not represent all seniors, like the many taking Limited English Proficiency (LEP) or special education classes. In addition, the time spent on the same homework varies greatly. Lastly, each have unique home lives and extracurricular activities contributing to their total workload. Click on the students below to find out more.
